GREEN EFFORTS LEAD TO GOLD AWARDS

May 2025

Dear Guests,

Nissi Beach Resort actively endorses the protection of the environment since the implementation of the Environmental Management System ISO 14001 in 2005 and having the requirements of Travelife Gold and the Circular Economy in focus. 12 years ago, Nissi Beach became a model GREEN BEACH by our continuous investments in more environmentally sustainable facilities etc along the beach area.

As environmental guardians, we encourage our guests to protect our local flora, such as the Sea Lilies and Euphorbia Paralias, on our preserved sand dunes. We also care deeply about animal welfare. Therefore, kindly refrain from disturbing or harming our local wildlife, such as bird nests, sea turtles, black snakes, and big lizards. Moreover, our resident cats enjoy their cat café - feeding station - by the tennis courts. Please feed them there only.

Our focus is to reduce consumption of energy and water, to separate and reduce waste, to implement a sustainable purchasing policy, to encourage the purchase of local fresh goods, and to pursue environmental sustainability. We use organic beauty products at the nissiSPA and we have ongoing staff training to boost the awareness with regards to natural environment protection. All our departments are highly committed to recycle plastic, cans, and paper to the maximum. We always encourage our guests to recycle as well.

Currently, our emphasis is to switch to renewable energy sources such as solar energy, photovoltaic system (new since May this year), and a heat/recovery system for cooling and heating. To minimise our carbon footprint, we strive to reduce plastic consumption and to compost organic leftovers. Our goal is to become a circular economy hotel by the end of this year.

To meet our targets, we monitor, record, and benchmark environmental performance regularly. Our Annual Sustainability Progress Report, available on our website, outlines more details.

Our sustainability efforts have been recognised through awards given by major European Tour Operators, local authorities, and prestigious international organisations such as the Travelife Gold Award (bestowed upon us for the past 8 years). Travelife is an independent auditor working on behalf of the International Federation of Tour Operators, which represents 13 National Associations in Europe. Additionally, we got top recognition in 2025 from both Tripadvisor and HolidayCheck.

We strive to engage our customers, employees, partners, suppliers, and contractors, in our efforts to protect the environment. Annually, on World Environmental Day on the 5th of June, we organise a beach cleaning day in cooperation with the local schools and our sister hotel Nissi Park. Resort guests are always invited to participate.

It is not where you are now that matters, it is where you are moving towards...

Thank you for being part of the solution.

The Management
Nissi Beach Resort
